Organizational Structure

The Starfighter Corps is a dynamic and highly organized aerial division that prioritizes strategic coordination, advanced piloting skill, and decisive action. Republic pilots within the Corps undergo rigorous training to master various flight patterns, dog maneuvers, and starship systems. The strength of the Starfighter Corps lies in its multi-squadron structure, with each unit operating in harmony to full specialized roles in the wider war effort.

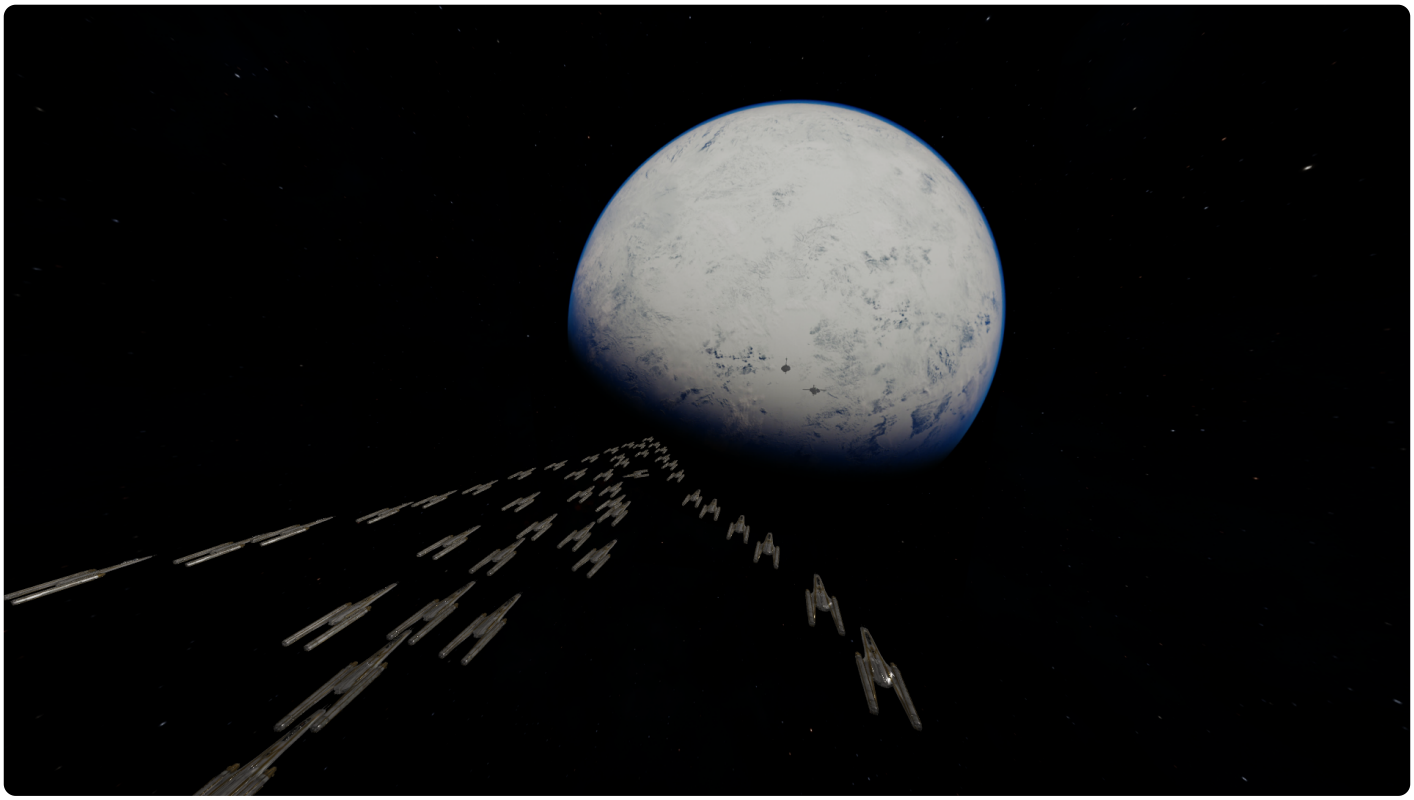

Standard Squadron Structure

- Command Flight – Oversees coordination, tactics, and mission execution.
- ARC Flight 1 – Operates ARC-170 Starfighters for multipurpose combat roles.
- ARC Flight 2 – Operates ARC-170 Starfighters for multipurpose combat roles.
- Y-Wing Flight – Focused on bombing runs, capital ship disruption, and precision strikes.
- Logistics Flight – Operates LAATs for transport, resupply, and battlefield recovery
