Materials and Ores

Materials are used to craft armors and weapons, This page serves as a comprehensive guide to the diverse range of materials and ores utilized in the crafting of armors and weapons within the world. Shinobi, adventurers, and aspiring blacksmiths can explore the intricacies of resource gathering, from the depths of underground mines to the fertile landscapes surrounding various regions.

Ores

Coal

- Found near the Land of Fire close to the Leaf village In a Cave

Stone

- Found in Land of Earth mine

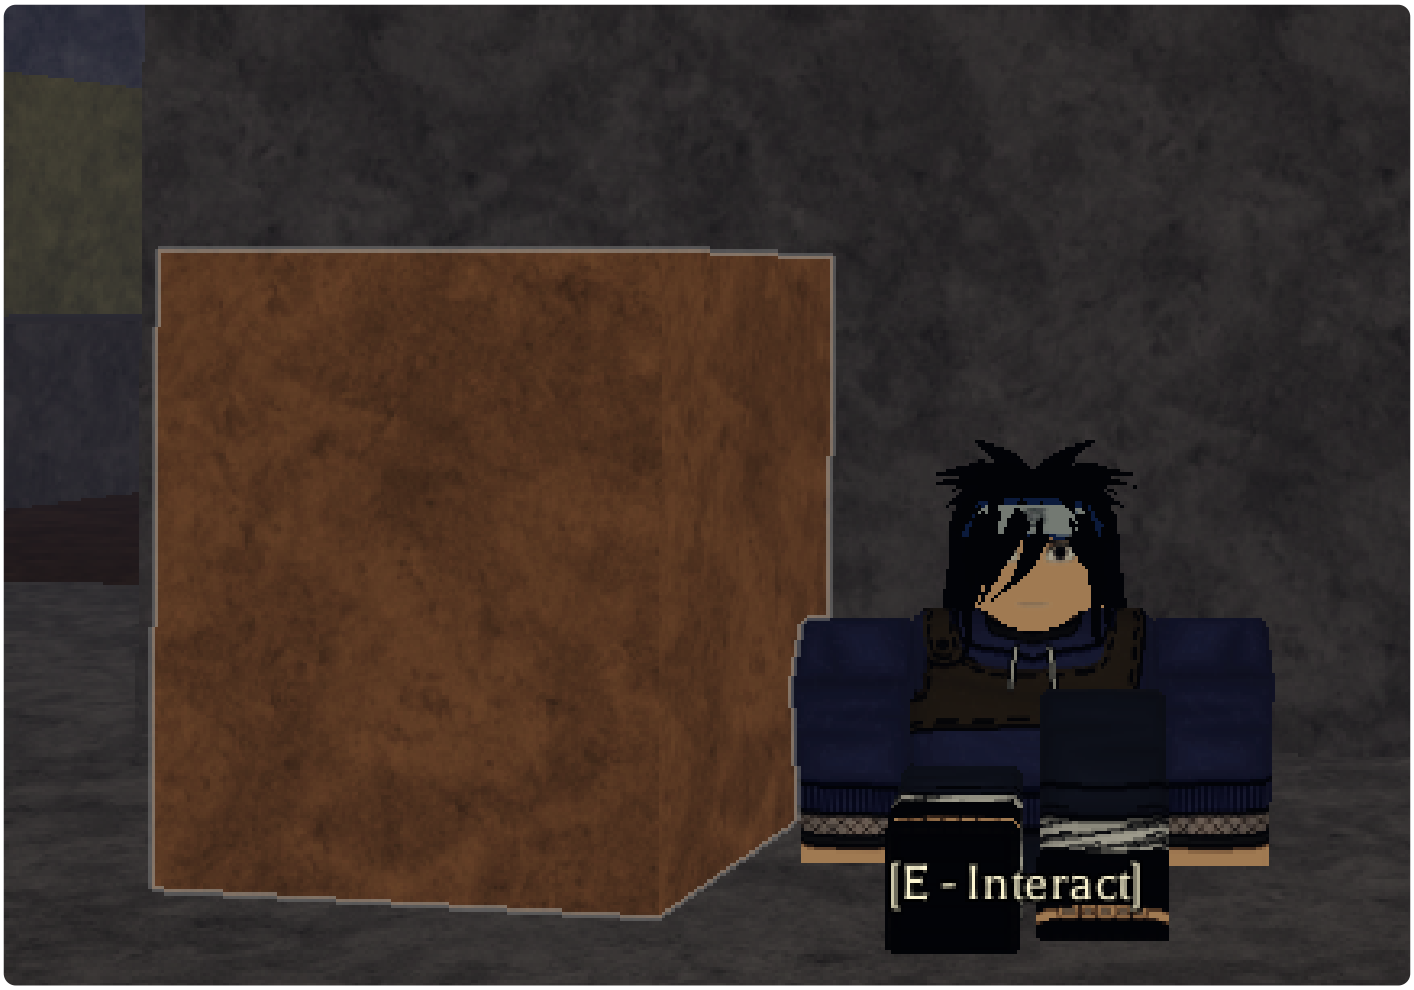

Iron

- Found close to The Land of Fire

Copper

- Found close to the Land of Fire

Gold

- Found inside of the Land of Sand not inside of Sungakure

Materials

Fiber

- Fiber is used on majority of the Crafting recipes. They are like Yellow Stalks and can be found in farms throughout the map, such as the Ramen Guy Farm and the Amberwood Farm.

Chakra Fragments

- Chakra Fragments can be given through the Ramen Boss. It drops 1 Chakra Fragment each time you fight it and loot the treasure box. Almost all bosses have a chance to drop a Fragment.

Fabric

- Common schematic dropped by the Samurai boss. It cost 6 fiber to make 1 fabric

Enriched Fabric

- Used to craft frog suit and more. Cost to craft is 3 Fabric + 6 Fiber. It has a 40% chance to drop Fabric Schematic and 10% to drop Enriched Fabric Schematic Hachiro Kurogane

Golden Enriched Fabric

- Drops from Golem
