Fritz Dynasty

Monarchs, in most cases, inherit their position based on a hereditary system. This means that the throne is passed down from one generation to the next within a particular family or dynasty. Monarchies can be categorized into absolute monarchies, where the monarch wields absolute power and authority, and constitutional monarchies, where the monarch's powers are limited by a constitution or by the existence of a separate legislative body.

The Fritz lineage has ruled for as long as any known history documents, with no known history to the origins of the royal line. Distinguished by a signature look of white hair and purple eyes, the line holds unforeseen power and has only been away from the throne once before.
