The Prosecution of the Ackerman Bloodline

PERIOD	850 AHR - 851 AHR
REIGN	King Eric II Fritz

History

The Ackerman Bloodline has gone into the shadows for numerous years; the Government has always been aware since the unrightful slaughtering of the Prime Minister Mason Smith that they’ve become a traitorous bloodline. The Government had no leads or ideas of the Ackermans' whereabouts, as the Stationary Guard and Military Police Brigade had only dealt with the civil unrest within Wall Maria & Rose from the lies they spew out to Humanity.

Though one day, as the Interior Police were patrolling atop the walls of the Mitras District, the Government caught a glimpse of a cart traveling around the region. Quickly catching suspicion, we apprehended the threat immediately. Unbeknownst to my men, they had just seized the remaining four Ackermen who dared to go against the state. Quickly taken into custody, the King of Humanity himself ordered a public execution of the traitorous individuals who threatened the civil peace within our walls.

Small mishaps would begin to stir within the walls once more as word of the Ackerman Family would shine to light, though they were supposedly “executed” one year prior. As a whole bloodline avoided being wiped out; some would go into hiding and would continue spreading their ideals as they would wait to make another appearance later in time. As one minor slip-up would occur, the Government would get involved, deeming their bloodline as Kill on Sight once more.

An event would be held in Shiganshina, hosted by the Government, as they would raid Shiganshina homes- pulling individuals out of their homes in suspicion of being members of the Ackerman Clan. Civilians would be torn away from their families as chaos would ensue within the district. During this raid, another slip-up would occur as 6 Interior police members would be killed by the Military, as they deemed this whole raid as wrong and cruel.

After this event, the Military would be summoned to Mitras after killing the Interior Police during the raid. 6 Military men who were a part of these killings would also be killed- an eye for an eye at a peaceful meeting.

Present Day

It is assumed, yet unknown, that the entirety of the Ackerman Clan has been prosecuted or killed. The status of the Clan is presumed extinct.
