## The Trainee Instructors

Every elite personnel, branch commander, high command and such went through the vigorous trainings, done by the __Trainee Instructors__ at some point in their lives.

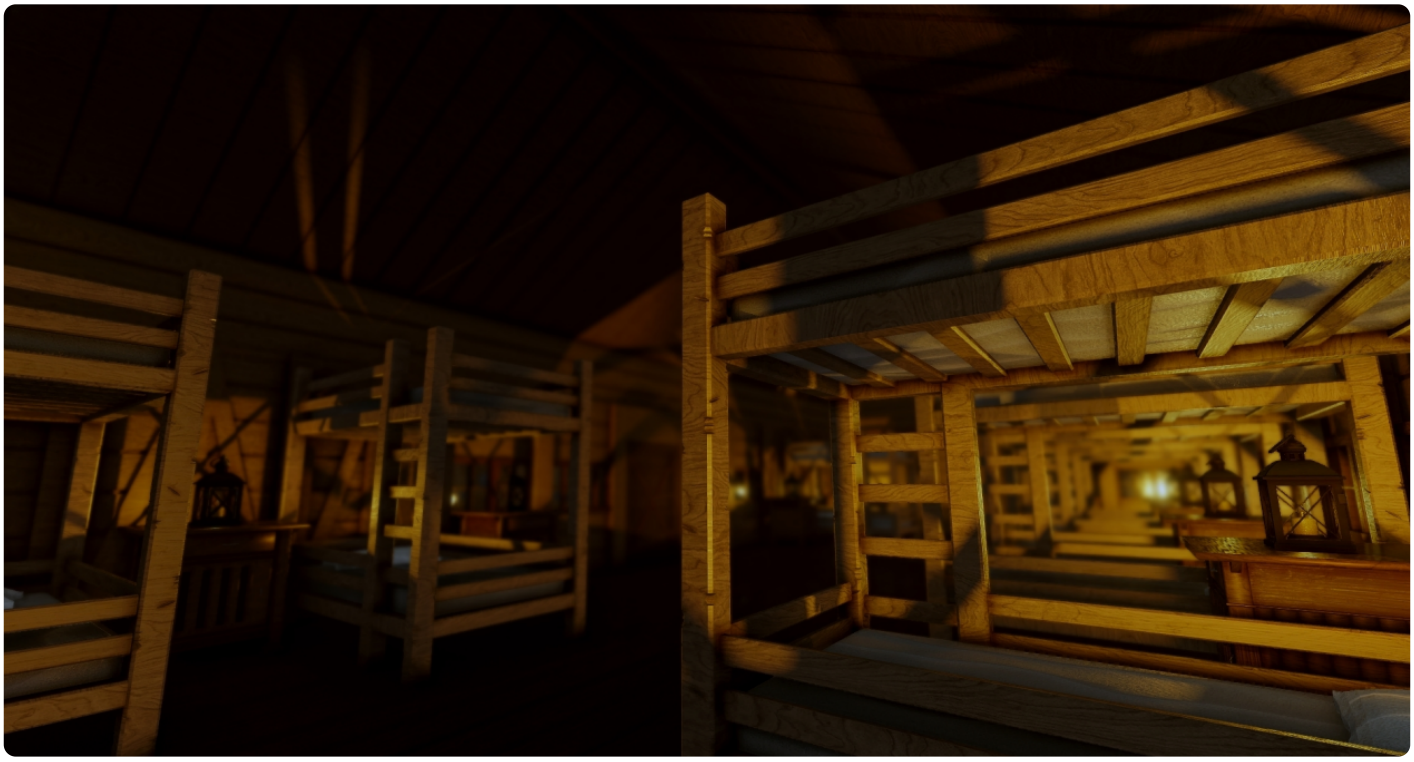

The Trainee Instructors are led by **Klaus** (nyeokill) - the Head Instructor, and his trusty Assistant Head Instructor, **Rhaenyra Sugimoto** (144Choo). At times, a Trainee Inspector oversees the Trainee Corps, but as of now, there is none. Under them into the hierarchy, we have other fellow ranks; firstly, the **Senior Instructors**. They are the ones usually hosting a training and overseeing the **Instructors**. The Instructors are the main force of the branch, assisted by the **Junior Instructors**, they are the ones that are teaching the cadets everything they shall know from their according phases. Under them, as the first rank you would get amongst the branch, is the Class Assistant. They are usually mere assistants and observers of the phase, hence that they are still on their learning journey to become a fully fledged Trainee Instructor.

Alongside them, other trusted and capable branch members are invited to teach cadets as Part-Time Instructors.

## The Cadet Life

As a cadet enlisting into the corps, you will be put through several phases where you will learn everything you need to know on your journey into the Military. Apart from a set of useful

information and skills, you will be taught the code of good manners and respect. Misbehavior and disrespect will not be tolerated; such activities will lead you towards punishment.

# The Disciplinary Unit

Amongst the Trainee Corps, there is a unit called the **Disciplinary Unit**, abbreviated as DU. This unit ensures that the cadets do not cross their set boundaries and rules, while assigning and executing punishments to the ones that broke the rules. As a Cadet, one if not the worst punishments you may receive is a **ranklock**. A ranklock does not permit you, for a determined period of time, to enter the Trainee Camp and continue your trainings. Although in some cases, you may also receive a downgrade in from your former training rank depending on the severity of your actions, usually it is not the case, After the period expired, you may continue with your trainings or attend one of the graduations held either on Wednesdays (ONLINE) or on Sundays (IN-GAME).

# The Field Instruction Unit

The other unit that the Trainee Corps offers is the **Field Instruction Unit**, abbreviated as FIU. This unit is made of skilled, experienced instructors who wish to teach the Cadets how to work on the field with the branches. FIU offers trainings to the cadets that work together with the branches, as well as offering a unit of Cadets who are willing to risk their lives early on before making it into a branch, with the tradeoff of them getting ranked higher in their branch upon graduation.

# The Cadet Reserve Division

The **Cadet Reserve Division**, abbreviated as CRD, is a unit of Cadets who get the chance to get field experience early-on in their careers. This division offers on-field experience to the Cadets, who are directed by FIU as well as branch members. If there are any operations that require high numbers, the CRD may be invited to fill in the numbers that the Military don't fill. Cadets who join CRD have a chance at joining their branches at a higher rank than a normal cadet, given the fact that they will be entering with more experience than the rest of their comrades, if they do attend the trainings and events.
