Society

GOVERNMENT	Jedi Custodianship
HEAD OF STATE	N/A
SENATOR	Eira Tuuperaki
CAPITAL	Tython Ridge
LANGUAGE	Galactic Basic Standard
AFFILIATION	Galactic Republic Jedi Order

Society and Culture

Tython does not maintain a conventional society. There are no major cities, civilian populations, or structured economies. Instead, the planet is visited primarily by members of the Jedi Order and those seeking knowledge of the Force.

Historically, Tython was home to early Force practitioners who sought balance between opposing aspects of the Force. This legacy remains embedded in the planet's identity, where exploration is as much internal as it is physical.

Those who travel to Tython often do so for reflection, training, or study. The environment itself encourages isolation and introspection, with its unpredictable nature reinforcing the need for discipline and awareness.

Government

Tython exists under informal Jedi custodianship. There are no centralized government and no permanent administrative authority.

Access to the planet is limited and largely controlled through the Jedi Order, ensuring that its historical sites and Force-sensitive regions remain undisturbed. Oversight is minimal but

intentional, focused on preservation rather than control.

In practice, Tython functions as a protected and symbolic world, where its value lies not in development or influence, but in its role as a foundation of Force philosophy and Jedi tradition.
