Society and Culture

Umbaran society is defined by status, negotiation, and survival. With the civil populous learning that only those who abuse the system may thrive, many have learned overtime that they must do whatever they can to rise to the top of their societal heirarchy and use others as stepping stools to do so.

Government

The Umbarans follow a caste system, allowing for a culture of bribery, blackmail, and other soft negotiation tactics to rise individuals into the Rootai level of society and into the Umbaran ruling council. These individuals are considered royalty and generally untouchable, ruling over the entirety of Umbara and its populous.
